Furnishings & Provisions from the Ocean

Artist. Visionary. Philanthropist.
Aaron Moreno loves to do it all. He is a true example of combining one's passion and skill. The result is *Palm Beach Driftwood*. Each piece is a unique work of art. The collection is sleek yet still has an authentic rugged finish.

Whether it be a cocktail table, dining table or a free-standing piece, it will complement any décor from an ultra modern loft to a traditional Palm Beach residence.

"My passion is to take something that is old, forgotten and deemed useless and breathe new life into it", stated Moreno. His pieces are as free as the ocean he dives in. When he is not free-diving, where he finds his inspiration, he is traveling the world with his non-profit, Frontrunner Creative Productions. A large portion of the proceeds from Palm Beach Driftwood go back to this cause. He founded it in 2007 to make those who have been beaten down by life feel loved, a similar concept to Moreno's furniture. **-embark**
